RECOMMENDATION LETTER

To Whomsoever It May Concern

I am pleased to write this recommendation letter for **Mr. Saliganti Anilraj** for the graduate program in Transportation Engineering at your esteemed University. I have known him for three years in my capacity as Professor of Civil Engineering, JNTUH College of Engineering Hyderabad. I taught theory courses Geo-Technical Engineering and Estimation and Costing to his batch of students.

He tried to possess profound understanding of Engineering. I was pleased with his performance in the class and his approach towards the subject. He always submitted his assignments on time. During lab session of Geo-Technical engineering, he displayed his team spirit when he worked effectively with other students to complete the experiments. He is one of the few students who always comes up with interesting questions during class sessions that indicated a deep understanding of the topics covered in lectures and class readings.

Mr. Anilraj is a reliable and disciplined student. Further he has the capacity of adapting himself to new and challenging environment as he studied at different cities during high school. With these strengths and his co-operative nature, I firmly believe you would make him a successful candidate for pursuing higher studies at your University. With this I strongly recommend **Mr. Saliganti Anilraj** for his studies at your esteemed University.

LETTER OF RECOMMENDATION

To Whomsoever It May Concern

It gives me immense pleasure to write this letter of recommendation for **Mr. Saliganti Anilraj**, who is applying for graduate program at your university. As his instructor for Advanced Computer Aided Design programs Lab, I have known Anilraj from early 2018 and have found him to be an inquisitive and dedicated student. He has got an "A" grade in practicals and I believe that he stands in the top 10 students of his class.

What impressed me about him was his proactive approach to the subject, and this helped him to easily comprehend the theory that was being taught in class. He was also very regular in attending my classes and made sure that all my assignments were submitted within the deadlines. In the lab sessions, Anilraj was remarkable with his management skills as to simulate the problems with a solution. Besides this, he proved his excellent presentation, which was fairly advanced, but conducted in a manner that was simple as well as convincing for his classmates.

Overall, I strongly believe that Anilraj's passion for Transportation Engineering will ensure a very bright future for him and the graduate program at your university will be the right avenue for him to fulfill his aspirations in the field of his choice. Hence, he has my strongest recommendation and I would be absolutely happy if this endorsement of mine helps in procuring an admission in your esteemed university.

LETTER OF RECOMMENDATION

To Whomsoever It May Concern

I am elated to recommend **Mr. Saliganti Anilraj** for admission in your esteemed University. I have been an integral part of his student life for about three years in my capacity as Professor, Department of Civil Engineering, JNTUH-CEH. During this period, I have taught him Transportation Engineering. **Mr. Anilraj** is an embodiment of strong desire coupled with relentless efforts to pursue his career growth.

He maintains a good rapport with faculty and fellow students. **Mr. Anilraj** is credited with an amiable and cheerful countenance. He has good communication skills and is a spirited team worker. His methodical and meticulous approach to any problem has cast an inerasable impression on me. His major project on "Analysis on Geometric Sensitivity, risk generation and congestion with reference to geometry" was a unique and challenging project. He showed a great deal of interest in widening the horizon of his knowledge by close interaction with the faculty and active participation in various seminars conducted by the college. He is also an enthusiastic participant in extracurricular activities too, who always played a major role in our University's annual fest program.

Fueled by his inspiring ideas and guided by his strong fundamentals, **Mr. Anilraj** has a penchant for research activities. I strongly recommend his candidature for graduate studies at your esteemed University.

P. Sravana
